

BRANDED MASKS

TECHNICAL DATA SPECIFICATIONS

- Branded masks are 100% cotton, providing a comfortable barrier against airborne irritants.
- British Standards Institution certified including, ISO9001:2015 and ISO14001:2015 as well as ISO13485:2016 approved.
- All Government approvals and licences are guaranteed
- The SA8000 Standard is the world's leading social certification program and we are proud to have been awarded SA800:2014 certification
- The masks are made up of 2 layers which have bacteria and virus filtration as well as dust and general protection. They are reusable and will allow up to 30 washes per mask.
- The masks can be washed by hand and hung to dry, or washed with a normal load of laundry in warm water and tumble dried on a medium heat setting. The mask can shrink slightly if it is washed or dried in high heat, but it easily stretches back to form with a few firm tugs at the top and bottom of the mask.
- The masks are unisex and will fit most face sizes. It has stretchy elastic ear-loops to provide a close but comfortable fit with minimal gaps. With a snug fit, the chances of unfiltered air entering or escaping are minimised.
- All masks are BSI Approved
- The masks come in plastic wallets of 5x, together with colour information and instructions.
- All branded masks are suitable for public and retail use.
